Description of the course	The course Economic Anthropology: Selected Topics provides insight into selected parts of one of the subdisciplines of social and cultural anthropology. The focus of the course is on contemporary theoretical and practical directions within economic anthropology that deal with issues of intertwining social, economic, health, environmental, historical and other ideas. Workshop critical reading of ethnographies as well as other texts, keeping a reading diary and developing one's own argument in writing is an indispensable part of the course.				
Learning outcomes of the course	After the completion of the course students will be able to: 1) distinguish the basic concepts and areas of interest of economic anthropology 2) understand the characteristics and peculiarities of economic cultural practices, locally and globally 3) critically interpret ethnographies 4) recognize the processes of permeation of culture and identity, in spatial and historical contexts
